

# Cleco 18 Series Push-To-Start Transducer & Current Control Tools

Cleco 18 series corded electric tools deliver durability, speed and ergonomics for ultimate performance on quality and safety critical joints.

Inline and Pistol tools utilize the push start feature to ensure an operation is not started until proper engagement is achieved. Push-To-Start offers higher productivity when screws are well oriented or picked up with the bit prior to running the application.

## Top 3 Target Industries:

- White Goods / Appliances – Various assembly parts
- Electric Motor and Compressors – Various motor and gear assembly
- Automotive Tiers – Various assembly seats, dash, electronics, headliners

## 18 Series Push-To-Start

Description	Torque Range		Max Speed	Weight		Length		Side to Center	
	Ft. Lbs.	Nm	RPM	Lbs	kg	in	mm	in	mm
